Nerul, Navi Mumbai - 400706

Ph: 022-27724459 Email: captainsabharwal@armstrongsafety.com

Armstrong Safety was established in 2009 by Capt. Pankaj Sabharwal (Master Marine) as a proprietorship firm, caters the requirements of shipping companies, offshore companies, government projects and other leading companies throughout India and abroad.

Armstrong Safety is headed by Capt. Pankaj Sabharwal, experienced Master, who understands the true needs of the sailors. A person, who has sailed for more than 14 yrs on different ranks, understands the meaning of "COLD conditions" and "HOT weather", a person who has faced such conditions; understands the meaning of the term "Safety First" and "Quality".

With more than 10 years in the industry, in the field of manufacturing and supplying, Armstrong Safety has taken all steps to ensure high quality standards are maintained with prompt service.

We always keep high stock of items, which enable us to make supplies at the shortest notice, in India or anywhere else around the globe.

At Armstrong Safety, our first priority is to supply clothing's of the best quality to suit the working conditions.

Armstrong Safety's mission is to achieve total customer satisfaction. We are committed to being the leader in producing the best quality safety clothing and foot wear at the most effective price. We create and maintain an entrepreneurial environment that enables innovation and continued support from the latest technology.

We aim to provide our valued customers and partners with high quality products and value - added services at acceptable prices and returns for the company.

ARMSTRONG SAFETY is formed by a group of dynamic professionals, well qualified, richly experienced and deeply committed, well known in safety gear and security apparels for detailed supervision, meticulous finishing and prompt service

PRODUCT RANGE

BOILER SUITS:

We have a wide range of boiler suits made of 100% cotton or terry cotton, available in all different sizes and a range of colours.

- **Cotton** – Its made of high quality cotton weaved yarn on water jet looms having twill weave. The material is dyed & processed thoroughly to provide fast colour and long life. The material is pre-shrunk, merserised and sanforized.
- **Blended Fabric** – These boiler suits are made with Polyester Cotton or Polyester Viscose Blend. The fabric is made on imported machines. Processing of the fabric is carried out to provide long life, fast colour and nil shrinkage. The fabric is woven in 2x2 construction which gives long life, graceful wear and fast colours.
- **Stitching** – Stitching is carried out on high quality imported machines using five thread technique which gives perfect interlocking and stitching does not wear out with time.
- **Testing** – The material is batch tested for Fabric Strength, Shrinkage and Colour Fastness.

THERMAL BOILER SUIT:

One of our exclusive products, this is made of imported material and guaranteed for performance of sub-zero temperature. This is especially useful for crew working on deck in cold climates. This Winter Boiler suit is made to suit different Winter temperatures. Outer material is water resistant which helps personal to work in drizzle and wet atmosphere as well as protect the personal from the cold. The product is insulated with high quality conjugated fiber ployfin which provides perfect insulation against cold climate.

PARKA JACKET:

The parka jackets are made of imported material and guaranteed of performance at freezing temperature.

WOOLEN CLOTHINGS:

We carry a complete range of the following Winter Gears-

- Woolen Sweaters
- Long Johns
- Mufflers
- Socks
- Gloves

SAFETY SHOES (EN TESTED):

These Shoes are made of made of high quality leather upper and PU or Nitrile Sole. Both these types of safety shoes are tested as per European Norms (EN 345 / 285). The shape of the safety shoe is designed to provide comfort to the ankles. The safety shoe is fully lined to provide comfort during long period of use. The product is very durable and meets all safety requirements of the Industry.

SAFETY SHOES (Others):

High quality safety shoes made of grained leather uppers and god quality soles (Nitrile, PVC or PU), each batch tested by central government laboratory for performance, chemical, acid and water resistance, anti-skid test and electrical resistance test. Product is guaranteed for performance. This range of products is available with test certificates.

Safety shoes are available in the following types:

- Derby Type
- Ankle Type
- High Ankle Type
- Rigger Boots with PU sole
- Rigger Boots with Nitrile Rubber sole

MONSOON GEAR:

- **Raincoats** – Lightweight, good quality raincoats made of imported material and available in bright / high visibility colour which is highly detectable in offshore fields.
- **Gumboots** – PVC Gumboots with sole designed for non-skid, acid and oil-proof properties.
- **Seaboots** – Seaboots with Steel toe cap designated for non-skid, acid and oil-proof properties.
